

Industry Codes:

NAICS

What is an Industry Code?

- Numbers used to classify business types by their economic activity
- Used in Canada, United States and Mexico

Where to find them:

North American Industry Classification System (NAICS) Canada 2012

North American Industry Classification System (NAICS) United States

Where can you use them?

Business Source Complete:

Use in main search bar or advanced search
NAICS/Industry Code search bar

ABI/Inform:

Use 'Look up NAICS codes' to search

Canada Industry Statistics:

Use in main search to find establishments and company directories

Why use them for research?

- Search for industry information online and in library databases
- Identify where your business fits into an industry
- Find related industries
